

A new finish is joining the Color Elements range: Blush

Delicate, ethereal pink, often associated with concepts of harmony and femininity. It symbolises beauty, innocence and purity.

Just like fresh peach blossom, pink has well and truly become part of contemporary bathrooms, which are now increasingly colourful with youthful offerings, or refined ones thanks to the use of fine stone like pink marble. A colour that can make the difference.

Dual Glaze+

Matt exterior, glossy interior. Aesthetics and hygiene are not rivals, on the contrary: the **Pura Blush toilet** - and this applies to all the finishes in the Color Elements line - has been treated with DualGlaze+, which combines refined matt exterior enamelling with **ExtraGlaze® Antibacterial** glossy interior enamelling, which is easy to clean. It also includes **Swirflush®**, the quietest flushing system in the world, designed for optimum hygiene.

A variety of washbasins

Highly customisable, fine accessories. Each of these ceramic items can transform your bathroom so it expresses a side of your personality.

*Orders that we will receive within the current month, can be shipped by September.
